## Methodology in brief

*The World Café methodology* will be used, and is a group interaction method *utilizing the conversations to enable knowledge creation*. A Café Conversation is a creative process for leading collaborative dialogue, sharing knowledge and creating possibilities for action in groups of all sizes. The environment is set up like a café, with paper-covered tables, with crayons and pens for writing, supplied with refreshments. People sit four to a table and hold a series of conversational rounds lasting from 20 to 45 minutes *about one or more questions (key issues) which are personally meaningful to them*. At the end of each round, one person remains at each table as the **host**, while the other three travels to separate tables. Table hosts welcome newcomers to their tables and share the essence of that table's conversation so far. The newcomers relate any conversational threads they are carrying - and then the conversation continues, deepening as the round progresses. As a result, all participants in the conversation are engaged, each voice is heard, and patterns emerge and are captured by the moderator and/or recorder. Consequently, *key success factors are to gather up a diverse and knowledgeable group of participants in the conversation and secure that the issues discussed are relevant, have meaning and are clearly formulated*
